Year	2023	Category	Aluminium
Hull Style	Single	Hull Type	Aluminium
Power Type	Power	Stock Number	
Condition	New	State	Western Australia
Suburb	MANDURAH	Engine Make	

### Description

Saggers Marine proudly represents Herley Boats exclusively for Western Australia!

The Herley Elite 9 premium powerboat is based on the proven platform of the popular Herley Commander and Captain models design philosophy. The hull draws from the traditional plumb bow theory of a long waterline length and fine entry with a relatively flat aft area that gives exceptional stability both at rest and underway. Using the latest technology, the Elite weighs in at 4.2 tonnes on the trailer and 3.4 tonnes on the water, making it very convenient to transport to your favourite destination while the spacious forward cabins and head offers a full head height which adds to the comfort factor.

The Herley Elite 9 also has a wider beam of 2.8 meters and a variable deadrise of up to 9.5 degrees aft for added stability even in rough waters. This vessel provides ample living space and multiple sleeping areas, making it the perfect trailerable sport fishing launch but for those seeking even greater comfort, an optional Quick DC mc2x3 air cooled gyro stabilisation system is available.

#### COCKPIT:

The Herley Elite 9 cockpit is a standout feature of this premium powerboat due to the combination boarding door and swim platform that provides easy access from the dock, making it effortless to dive and swim. The design incorporates a lowering side hull to produce a 1-meter wide swim platform close to the waterline, which opens up the cockpit and creates a comfortable space for guests. Lockable storage compartments for 10 game rods and reels are located at the forward berths, a massive storage locker in the center of the saloon floor, and additional storage built in under the saloon dinette, above the windows, and under and behind the galley. Specific spaces are also designated for safety equipment to ensure peace of mind while on board.

---

A fold-out table on the portside gunnel which can be relocated to the aft bulkhead seats to provide ample space for cocktails on deck while covered from the sun. Additionally, there is a large storage locker under the cockpit floor that is perfect for storing fishing equipment as the cockpit is primed for fishing adventures with padded gunnels, state-of-the-art rod holders, raw and fresh water washdowns, knee-activated wash stations, and a forward kill tank with a macerator pump-out plus a dedicated compressor storage locker for diving enthusiasts.

#### INTERIOR:

The interior of the Herley Elite 9 is designed with luxury and functionality that is evident by a full galley which features a sink, cooktop, plenty of counter space for meal preparation, and multiple beds with the dinette table able to convert into a third bed. The interior is finished to the highest standards while bi-fold doors and windows open to the cockpit aside from a forward-opening windshield allowing for fresh air flow. There is ample storage throughout the boat including overhead lockers in the forward staterooms, a dedicated tackle locker in the transom, and two large draining lockers for storing tuna bags or extra ropes.
