Description

Saggers Marine proudly represents Regal Boats exclusively for Western Australia!

The LS6 Surf is designed with the Regal Surf System that helps you craft the perfect wave. With deeper waves, 2,000 pounds of ballast, a quicker and quieter ballast pump system, Volvo's Forward Drive and Water Sport Control, the Regal 2.0 Surf System ensures to deliver remarkable performance every time.

The all-new wake shaping tabs that perfectly fits the LS4 and LS6 Surf Boats give longer and deeper waves to create the ultimate surfing experience. Dual 9" displays provide extended surf control as well as intuitive navigation and system information. The LS6 Surf features the most versatile transom in its class with not only dual multi-position UltraLounges and a low-to-the-water swim platform, but also two fold-away rumble seats while the FasTrac Hull gives you more control on the water, with up to 26% faster speeds, and at the fuel pump, with up to 30% better fuel efficiency.

The cockpit has also been completely redesigned to provide a six-inch wider interior beam, 15% more seating space, 17% more storage when compared to similar-sized models and a head that rivals our 2800.
